THE Manufacturers of this new and valuable preparation, beg leave to call the attention of Farmers and Graziers to this effectual remedy for destroying Ticks. Lice, and all other insects injurious to animals and vesetation, and preventing the alarming attacks of the Fly and Scab on Sheep.

Its use not only removes the vermin on animals, but cleanses and purifies the skin, thereby materially benefiting their general health, and greatly improving wool, both in quality and quantity.

This article completely supersedes that laborious and disagreeable work of preparation in your own buildings for Sheep-washing, as it is ready at all times, in any climate, and for all descriptions of Sheep, even for ewes in lamb, and can be furnished at a much reduced cost.

"THE SIN OF OLD AGE."-We learn that there is a strong desire on the part of certain Northerners to get rid of Gen. Scott as the Commander-in-Chief of their forces. This is particularly the case with certain political demagogues, who, though they "never set a squadron in the field." have yet received firstclass military appointments at the hands of the Administration. They say a Northernborn man ought to be at the head of the army for the invasion of the South. They say furnto the building, lodging in the opposite ther that Scott is entirely too old to command that "past is all his fame." In reference to this latter suggestion, Gen. The Old North State. On the anniversary of the very day that the old North State, by a solemn act, dissolved her connection with the British Crown and Parliament, she has declared her separation

from the hateful tyranny of the Northern usurpation at Washington. On the 20th of May, 1775, the Mecklenburg Declaration of Independence was adopted and proclaimed. On the 20th of May, 1861, just eighty-six years from the date of that great historical event, the same staunch and gallant old Comon wealth is compelled to re-enact a similar declaration, and to break forever the ties which have bound her to her faithless, usurping, and tyrannical brothers of the North. The omen is replete with inspiring thoughts and promises. The tyranny of George III had much of historical association to give cause to the spirit of resistance that over-whelmed and bore it down. A common kindred, religion, language, and literature, constituted a bond of sympathy and affection that was difficult to tear asunder.

The works of Milton, Shakespear, Bacon, and Locke were a common pride and inheritance. Magna charta and the common law were a palladium of civil liberty, enjoyed both by the colonies and the parent country. Com-mon glories and an illustrious ancestry clustered around each in proportion. The quarrel was concerning a right. But the principle of taxation without representation, if conceded, would serve to destroy equality and would lead to despotism. North Carolina preferred to destroy despotism in the bud; she chose to cut herself off from the glorious destiny of a people to whose supremacy in arts and arms the world bowed in homage, rather than submit to inequality, and to carve out for herself

a future and name among the nations.

The tyranny from which she has now absolved herself is a vulgar and an odious tyranny. It claims the right to regulate our domestic institutions, to prescribe our morality, to restrict our trade, to limit our State sovereignty, to coerce us by arms, and to make vassals and inferiors of our people. The spirit of the Mecklenburg Declaration arose, in its ancient majesty, and on the anniversary which first gave it birth, has thrown off the yoke of that bastard usurpation which assumes imperial airs in a land of freedom, and assumes to crush the spirit of our fathers. The sons of the sires of the Old North State are worthy of their illustrious ancestry.

The Foreign Ministers Restive.

A dispatch from Washington says: There has been much comment lately in diplomatic circles upon certain conversations of a piquant nature between one of the ministers of a leading European court and the Secretary of State. Governor Seward has not hesitated to declare, in very decided language, that our government cannot tolerate for one moment any kind of interference in the domestic quarrel now existing in this country, be the consequences what they may. Such an interference will be met with all the vigor and resources of the government. It is said that this plain speaking of the Secre-tary of State provoked a smile rather more grim than diplomatic.

The Alexandria Sentinel of the 17th probably refers to this affair in the following par-

We have seen a gentleman, in every way reliable, just from Washington, who states it a common rumor that Lord Lyons called on Secretary Seward to-day and announced to him that England would not recognize the present blockade. Certain it is that Lord Lyons called on Mr. Seward upon official business, and imparted something not altogether pleus-

This rumor gathers further importance from the fact that two English vessels were brought to at Fortress Monroe, on Tuesday last, not being allowed to enter Norfolk, and full time has transpired to communicate that fact to the British Minister.

They tell Mexico they will protect her against the intervention of European powers, and enforce the Monroe doctrine. They say to Spain, "proceed in the Dominican affair at your peril." Thus these martial States of the North propose to fight the Southern Confederacy, Spain, England, France, and a half-dozen other powers at the same time, as a job to be done before breakfast. Tories Now and in 76.—In numbers, we have not half the tories in Virginia now there were in 76. With the exception of Carlisle's squad of vermin in the Northwest, the aninal has no existence anywhere within the Commonwealth. In respect to character there is no other comparison except by way of con-trast, between the Tories of the Revolution and those of the present day. The first were mainly gentlemen of cultivation and wealth, and generally in some wise connected with the government "at home "-as old England was then called. The last, taking Carlisle for a specimen, are worthless wretches who would draw down infamy on a good cause. UNFINISHED ORDER. A bill to amend the charter of the Univer-

sity of Paducah. . The pending question being amendment proposed by Mr. WHITAKER yesterday, it was discussed until the Senate determined to consider a bill for the benefit of he city of Lexington, which was passed.

A bill to change the boundary line of Hart, Barren, and Metcalfe. The bill to amend the charter of the University of Paducah, was laid on the table.

Mr. GIBSON offered a resolution thanking the Clerks, Reporters, Doorkeeper, Pages, and Servants, for their efficient services during the present called session. Adopted.

Various propositions were presented touching our federal affairs, and the following adopted:

WHEREAS, There exists a civil war between the National Government and the seceded States, which Kentucky deeply deplores; a war she had no voice in creating, and in which she has hitherto refused to take a part, and she now refuses. Being a part of the National Government in the enjoyment of its benefits—such as mail facilities, national hospitals, federal courts, protection at home and abroad, a garrison paid out of the national treasury into which she is paying revenue, and having a representation in Congress—Kentucky ought, at least, to remain neutral till the end of the controversy, neither hindering the National Government in the exercise of its authority, nor furnishing men, as a State, to either of the belligerents, nor asking aid from either to maintain her position, she will all the time be ready and anxious to mediate between the belligerents, and will be profoundly happy should she be able to reconcile the contending parties, and avert the shedding of fraternal blood by fraternal hands. With this position Kentucky is willing to go be fore the civilized world, and let her conduct pass into history, and await the candid and calm judgment of future and disinterested generations. Being connected with the second States geographically, and having the same domestic institutions, she is unwilling to take up arms against them. Being attached to the National Govern ment under which she has always lived, and greatly prospered, and having no cause for war against it, she cannot take up arms to over-throw it. Having, in good faith, taken this position, she asks the belligerents to respect it;

therefore,
Resolved by the Senate of Kentucky, That Kentucky will not sever her connection with the National Government, nor will she take up arms for either of the belligerant parties, but will arm herself for the one purpose of preserving tran-quility and peace within her own borders.

Resolved, That Kentucky now tenders, and to the end of the war, all the time, will tender herself as mediator, and that she will constantly be ready to do all in her power to bring about a

just and honorable peace.

FINAL ADJOURNMENT. The hour of 12 o'clock having arrived, before announcing the House finally adjourned, the Speaker, Hon. D. Meriwether, said:

GENTLEMEN: The time for another separa tion has arrived, and I am sorry to say that the dark and portentous clouds obscuring our political horizon stil lowers over our once prosperous and happy country. Gloom and darkness still overshadow the land, and the keenest vision can scarce perceive one single

ray of light in the future. One section of our common country stands in hostile array against the other, and even personal strife between parties of our own beloved State is feared. May I not then appeal to you all, on your return to your several c stituencies, to endeavor to pour oil upon the troubled waters. Can we not for a brief space of time lay aside all party considerations, and unite as a band of brothers for the salvation of our country? and may God grant that we may even then be able to accomplish this de-

sirable end.

In conclusion, gentlemen, allow me to tender to you all my most heartfelt acknowledgments for the uniform kindness and courtesy received at your hands. My many errors as your presiding officer have been overlooked, your presiding officer have been overlooked, my short comings have passed without notice, whilst your kindness has ever been conspicu-

May God grant you all and our common country a safe and speedy deliverance from all surrounding dangers, and preserve our land from strife and bloodshed.

Gentlemen:—The confidence I have in Perry Davis'

Sprains, and Rheumatism, for the cure of which I have successfully used it, induces me to cheerfully recommend its virtues to others.

A few months ago I had recourse to it to destroy a felon; although I had never heard of its being used for that purpose; but having suffered intensely from a former one, and having no other remedy at hand, I applied the Pain Killer freely for about fifteen minutes at evening, and repeated the application very briefly the next morning, which entirely destroyed the felon, and increased my confidence in the utility of the remedy.

Yours truly,

These symptoms, if allowed to go on—which the medicine invariably removes—soon follows Loss of Power, Fatury, and Epilettic Firs, in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample testimony to the truth of these assertions. In lunatic asylums, the most melancholy exhibition appears. COLOR OF THE HAIR, where age or sickness has turned it grey, and it will render it soft and glossy.

"ANYBODY"

Who may try it, will find that it does not color the skin, but, by stimulating the natural secretions at the roots, gives new life and strength to the Hair, and thus restores its color and freshness. BEFORE TAKING THE AFTER TAKING THE ELIXIE. DR. WRIGHT'S

CELEBRATED

REJUVENATING ELIXIR!! Prepared on the strictest Pharmaceutical principles by one of the ablest Chemists of the age. by one of the ablest Chemists of the age.

This is altogether a new medicine, the result of modern discoveries in the vegetable kingdom, being an entirely new and abstract method of ctre, irrespective of all the old and worn-out systems published by accemplished quacks to the suffering. Dr. Wright, well knowing the deception practised upon the uninitiated, felt-it his duty at once to have this Elixir tested by the whole Medical Faculty, who, without even one dissenting voice, have given in their adherence to its perfect and undivided control over the whole physical man when his frame has been reduced, and when all other medicines known to the Pharmacopoeia have been tried in vain. Long thought, years of patient investigation, and a nit desperandum determination, have crowned the Doctor's efforts, and he now offers the Elixir to suffering humanity as the only thing that can cure the following diseases—namely:

GENERAL DERALITY

SENCE OF MUSCULAR EFFICIENCY,
LOSS OF APPETITE,
DYSPEPSIA.
EMCLIATION,
LOW SPIRITS,
DISORGANIZATIOM OF THE ORGANS OF GENERATION,
PALPITATION OF THE HEART, And, in fact, all the concomitants of a nervous and debilitated state of the system.

As a Stimulant,

It is quite different from alcoholic preparations. It is not subject to reactions in any shape; it continues to exert its influence, gradually and efficiently, as long as the least necessity exists for its presence. As a Female Medicine,

It is equally powerful and effective, and restores the equilibrium sooner and safer than all the other medicines which for years have flooded the market, and which are only injurious, in place of assisting or renovating the constitution; for a very good reason too, that they are only made from the effusions of minds ignorant of the Medical profession altogether. No Minerals!

Dr. Wright thinks it well to stake his professional haracter on the fact, that no minerals whatever orm the least component parts of the ingredients in is Rejuvenating Elixir—well knowing what ruin as been entailed on the community by opium and preserve.

Generally, to the debilitated, Dr. Wright would say, Vever despair. No matter how worn down you may ne—no matter how weak you are—no matter what he cause may have been—forsake at once whatever has led you to depart from Hygienic principles—take

And you will soon find yourself a new man—a pride instead of the reverse, to your friends, and a healthy, sound, and worthy member of the human family.
